

# HYDROMET PORTAL SAINT-LUCIA

## Discussion and steps forward

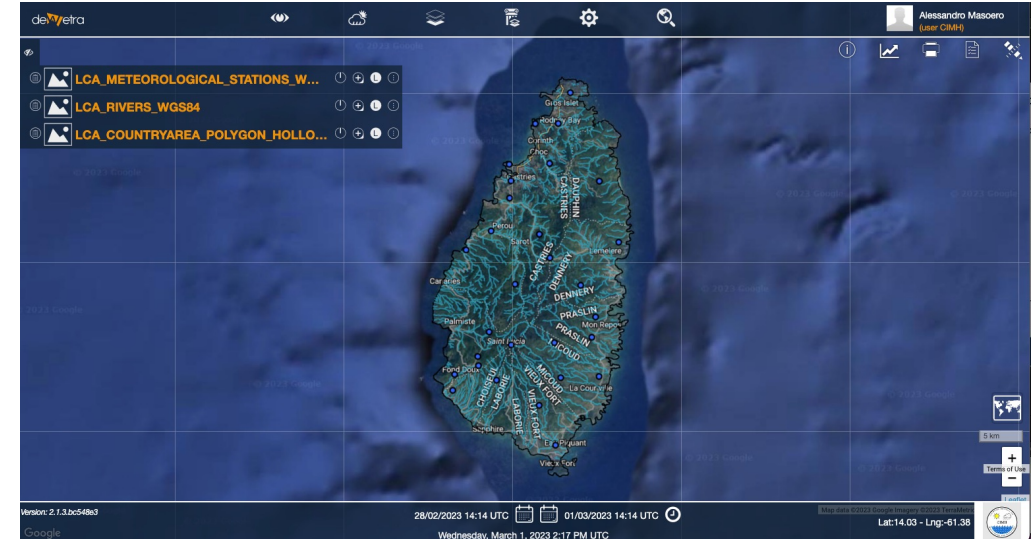

*Thursday 30<sup>th</sup>*

[www.cimafoundation.org](http://www.cimafoundation.org)

## DATA

Backend: Delft-FEWS

Frontend: myDEWETRA

## INFORMATION

- How the Hydromet Portal can support your work?
- What actions you now do by hand do you think could be speeded up/automated by the Hydromet Portal?
- Observation data/products you currently use in your operations?
- Forecast data/products you currently use in your operations?
- Data/products you would like to have access to?
- How to set up the real time data flow?
- How hydrological and meteorological warnings are generated/disseminated?
- Which data should be shared to the general public and how?
- .....
